

Making international relocation for the NHS better

ContinueUs

Relocation specialists for the NHS

Streamline your international recruitment and retain your top talent

Filling NHS roles with international health professionals can be a real challenge. That's where we come in.

We take the hassle out of international recruitment, supporting your overseas NHS Professional (NHSP) every step of their journey. From planning and accommodation to onboarding and long-term housing, we make the UK feel like home.

We tailor our unique care and support service to the needs of each new NHSP, making sure they're confident, happy and ready to join their new work colleagues in the NHS. Filling roles like this with engaged and productive staff boosts the wellbeing of your teams, which ultimately improves patient care!

And because we offer full support at every stage of your health professional's journey, they remain positive and committed to passing their exams and staying with the NHS. This lowers your attrition rate and saves you valuable recruitment costs.

Beyond accommodation: We're redefining support for overseas NHSPs

ContinueUs was born from the vision of Jason and Julius Amogbokpa – two brothers with a big dream and a bigger purpose.

Jason, an experienced GP, had seen the toll on nurses' wellbeing as he treated them for stress and burnout. He often advised much-needed time off, which inadvertently made staff shortages worse, resulting in longer patient wait times.

Together with Julius, a property specialist, they set out to change things for the better, initially providing affordable, beautiful and comfortable accommodation for NHSPs seeking to live and work in London.

By listening and learning from those who used the service, they've now grown the business to provide additional physical and emotional wellbeing support at every stage of the relocation process – an all-in-one solution that no other company in this sector provides.

Giving NHSPs the ContinueUs support they deserve

We see our service as a journey – here's what we deliver at each of the key milestones:

Journey milestone one:

End-to-end planning

We'll take a collaborative, partnership approach to coordinate the relocation of your NHSPs. From day one, a dedicated ContinueUs account manager will start working with you to understand your needs, allowing us to tailor our service accordingly.

Journey milestone two:

Accommodation and living support

We offer exceptional serviced accommodation. Each NHSP will have their own room in either a house or an apartment. Our properties are tastefully decorated and equipped with modern furnishings and technology to provide comfort and practicality.

Journey milestone three:

Onboarding

While you're developing the career of your NHSP, we'll make sure they 'function and flourish' when they're not at work. By 'function', we mean cracking the fundamentals of living and working in the UK. And by 'flourish' we mean the extra mile we go to create a positive work life balance for them.

Journey milestone four:

Wellbeing and pastoral care

We know that some of your NHSPs may be on their first trip away from home, which is why we're on hand to support them with their mental health, as well as providing help with pastoral care if required.

Journey milestone five:

Long term

When the time comes for your NHSP to fly the nest and move into long term accommodation, we'll provide a full suite of services to help them find, and transition, into their new home.

We're changing lives for the better

We believe passionately in the NHS and want to continue powering it forward to help it thrive, save money and deliver outstanding patient care. But don't just take our word for it! Here's what **Gary Benge** – Head of Recruitment Operations at Kings College Hospital NHS Foundation Trust – and **Jini** – an Occupational Therapist at the South London and Maudsley NHS Foundation Trust – have to say ...

“ We're going above and beyond for our international nurses. We're giving them enhanced support so they can settle quickly and smoothly into their new jobs. And we're helping them feel relaxed and secure as they start their new lives here in the UK. It's all thanks to an incredible partnership we've formed with ContinueUs, who understand what we're trying to achieve and are living our values of 'kind, respectful and team' to deliver success. ”

– Gary Benge, Head of Recruitment Operations at King's College Hospital NHS Foundation Trust

“ It's always been a dream of mine to work in the NHS, but when I finally got the job, I was very worried because I've never travelled before. Thankfully everyone at ContinueUs has been amazing. From day one – when they carried my suitcase up the stairs into my home – it was literally like the stress was being lifted off my shoulders. And because I'm happy, relaxed and secure at home, I'm able to focus properly on my job, providing the best possible care for my patients. I feel part of the team – confident in my abilities and proud that I'm contributing and adding value. ”

– Jini – an Occupational Therapist at the South London and Maudsley NHS Foundation Trust
